Glisey House.

As on like occasions the business transacted and the nature of the discussion
were kept quiet. "The Evening World,"
however, is in a position to announce
that the bill referred to will be the outcome.

What the Board of Managers particularly grumble about is the centralization of power. Under the law the Lunacy ommission dictates everything. It ders the supplies for every institution, and on the plea of economy it is harged the patients are made to suffer.

tem opens the way to the perpetran of all kinds of fraud—that, in fact,
invites it, and that every day the
ger becomes greater; that instead of
ving the purposes for which it was
ated it will form into a big political stage it will form into a big political chine, with abundant patronage to pense, to the infury of the State and detriment of the insane patients. It is matter stand now no institution in purchase as much as a penholder about first obtaining the consent of Lanacy Commission. It is feared it even on question of food the pants will ultimately suffer. Even now is use of tobacco is forbidden in every stitution, although it is claimed that some cases tobacco is needful. It is also feared that the next dictation on the Commission will come on the stilling of drugs, and where to pur-

nuestion of drugs, and where to purhase them.

"When the Lunacy Commission began in investigation of the Poughicepsie institute," said Dr. George R. Shrady of an "Evening World" reporter this morning, "I then saw that the time was not far distant when the Lunacy Commissioners themselves would have to be investigated. It has come to that now.

"The Boards of Managers of all the state institutions are representative men, who do not draw one dollar of lalary. They accepted the trust because of their desire to help the unfortunate mane. Their wishes should at least reserve some consideration, but they get tone.

se institutions are now being placed

"These institutions are now being placed upon the same plane as prisons, and on account of their desire to pose as economista, the Lunacy Commission is opening the doors to and inviting extravagance if nothing worse.
"It took four years of the hardest kind of work to get the present law passed, on account of the fight that had been made against it by certain districts. It was never our intention to have a lunacy commission or centralizing power in such a manner, but the clause was inserted as a "compromise."

ich a manner, but the clause was inried as a 'compromisa.'
"The result is that the present law
was the Lunacy Commission autocratic
owers, and it purchases everything for
Il the institutions. It must be comelled to keep lis hands off the Board
Managers, which is composed of honable men, who are right on the ground
to look out for emergencies.
"The Lunacy Commission is hidding
or the rankest kind of competition. It
as put us on a par with the prisons,
and we can purchase nothing.
"The next it will attack is our drugs,
his is a sacred trust with the managers
withing more. We have nothing whatver to gain, but we do say that the
ate wants to take the very best care
its insane and the question of a cent
more a pound for meat does not matt."The whole system is drifting into

politics, the very evil of an object of avoided."

"Now." continued Dr. Shrady, who is one of the Poughkeepsie managers, "I think it is an outrage that the Lamacy Commission has cut off the supply of to-

Commission has cut off the supply of to-bacco. In certain cases I really believe natients need it, but on the ground that it might set fire to the building the use of tobacco is prohibited.

"All the charges made against the Commission are true. Under the plea of economy it is actually paying more for everything." Will not say that I could substan-

everything.
"I will not say that I could substantiate the fact at present that in matters of food the patients are aiready suffering, but I do say that the tendency is all that way, and in the near future the patients are sure to suffer if the present condition of affairs is allowed to continue.

Complissioners do what they like, without having any idea of the institutions from which they constantly withhold supplies.

Among the representatives of the Board of Managers of the different institutions present at last night's conference were flecting. Dunham, of the Utica Hospital; ex-Senator Hammond, of Willard; Messrs. Rankin and Cummings, of Binghamton: Charles P. McCleiland, of the Hudson River Hospital; Mr. McArdle, of Middletown; George Hall, George F. Darrow, W. L. Proctor, Dr. P. M. Wise and James S. Wells, of the St. Lawrence Hospital at Ogdensburg.

It is doubiful if many of them will attend the Lunacy Commission meeting on Thursday. The Commission meeting on Thursday. The Commission meeting on Dr. Carlos F. MacDonald, of this city; Goodwin Brown, of Albany, and Henry A. Reeves, of Greenoort, L. I. Dr. Shrady wanted it understood that he did not attack personally any of the members, but he was unaiterably opposed to the system.

Dr. MacDonald could not be found at the Cambridge Hotel, where he is stoppling, when an "Evening World" reporter called there this morning.

She had been summoned to produce her niece, Madge Irene Gaul, but Robert J. Gaul, father of the child, appeared in court with his daughter in his arms. Conviction of Kuckelhorn's Mur derer Affirmed.

ALBANY, Dec. 12.-The Court of Appeals has affirmed the conviction of Matthew Johnson, sentenced to death or murder in the first degree.

Twenty-fourth street, this city, on Dec. 10, 1892.

The murdered man's body bore twenty-five wounds, and near it was found four bloody weapons, a big wrench, a boit and two hand-saws. From cuts on the victim's waist it was evident that Johnson intended to cut the body up with the saws and to burn it in the furnace to destroy all evidence of the crime.

The murderer's motive is believed to have been revenge, for he blamed Kuckeinorn for his discharge from the employ of Thomas & Wylle as a porter. A pair of blood-stained trousers stolen from the lithographing shop and found in his room led to his detection.

Johnson was convicted of murder in the first degree on April 22, 1883, in the Court of Oyer and Terminer, and sentenced by Justice Ingraham to die during the week of June 12 last. His case was then appealed.

A boy left a letter for Bernadat early this morning, addresed to Etienne Morrissine, of 471 West Twenty-third street, a brother of the suicide.

It was written in French, and in it the writer said he intended to kill himself by jumping from the roof into the street. He spoke of having belonged to a French regiment in 1890, and while practising to qualify as a sharp-shooter, used to fire rounds of forty-five cartridges that caused noises in his ears.

He long ago wanted to kill himself, but was held back, but to-day he was going to end it all. He urged his brother to tell their father of his sad end, which he regretted would bring a stain on the family.
